

CHURCHILL BLAMES KITCHENER; DEFENDS HIS ADMINISTRATION

SAYS ANTWERP BLUNDER WAS
IDEA OF KITCHENER
AND FRENCH.

GERMANS CLAIM SUCCESSES

Repulse Russians in East and Cap-
ture Many Serbs and
Guns.

(Associated Press)
The German war office today an-
nounced the capture of 8500 Serbians
with twelve cannons. Of these, 7000
prisoners and seven cannon were taken
by the Bulgarians. The pursuit of the
Serbians continues, the report adds.

Churchill's Explanation.
Winston Spencer Churchill explained
his resignation as chancellor of the
Duchy of Lancaster by telling the
House of Commons today that the
sending of an army to the relief of
Antwerp originated with Earl Kitch-
ener and the French government.

During October of last year British
marines were sent ashore and sent
to Antwerp to assist in the defense of
the city against the Germans. The
city fell shortly afterwards and several
thousand British escaped but were
interned in Holland. The severest crit-
icism of Churchill's administration of
the Admiralty was in connection with
this episode.

Berlin Claims Successes.
Berlin claims successes for the Ger-
man arms along the Sty river, and
also reports the repulse of the Rus-
sians east of Vilna.

A Berlin dispatch quotes Austrian
General Borovich as declaring that
the Italian offensive has not even
detected the Austrian line in the Isonzo
region.

However, the Italians' official re-
port claims progress for their troops
on that front.

Drove Germans Out.
Paris reports the Germans having
been driven out with heavy losses af-
ter they had penetrated a first line
French trench near Ecurie.

ment of the president to be married

Governor Dunne Is Determined Negro's Hanging Be Private

Again Reprieves Negro Because
Sheriff Will Not Give
Assurance

(Associated Press)
Springfield, Ill., Nov. 15.—Ellston
Scott, the negro who is under death
sentence at Murphysboro for the mur-
der of his sister-in-law, has again
been reprieved by Gov. Dunne. The
governor has extended the time of ex-
ecution to December 17 and he has
announced that he will not let Scott
be hanged until Sheriff White of Jack-
son county will give assurance that
the execution will be private.

Springfield, Ill., Nov. 15.—Refusing
to accept the reply of Sheriff White of
Jackson county that he would abide
by the law in the execution of Ellston
Scott at Murphysboro on Nov. 19 as
satisfactory, Governor Dunne address-
ed a letter directing him to "state
particularly the number of persons
deputized or invited to attend the ex-
ecution."

The sheriff is requested to specify
the number immediately. Governor
Dunne intimated that unless this re-
ply is satisfactory he will again re-
prieve Scott.

BURROS FOR ORPHANS SPEND DAY IN DIXON

W. G. VOLTZ OF ARIZONA ARRIV-
ED HERE SUNDAY WITH
20 ANIMALS.

ON HIS WAY TO MOOSEHEART

Shortly after noon Sunday W. G.
Voltz arrived in Dixon from the west
with a pack of 20 burros and five
horses. He will remain until Tuesday
and has his outfit quartered at R. M.
Moore's feed shed on Hennepin ave-
nue. He is on his way to Mooseheart,
the colony established by the Moose
lodge near Aurora, where he will de-
liver the burros for the use of the or-
phans at the home.

Mr. Voltz left Phoenix, Ariz., with
his outfit May 6 and traveled alone
until he reached Missouri. There his
wife and daughter joined him. They
travel in a covered wagon and the
burrows trail behind. They have now
traveled nearly 2800 miles and have
about 75 more to cover before reach-
ing their destination. A stop is made
in each town where a Moose lodge is
located and Mr. Voltz delivers a talk
on the order. He spoke this afternoon
at the Family theatre and will be en-
tertained tonight at the same place.

Mr. Voltz is assistant secretary of
the Moose of Arizona. After leaving
his pack at Mooseheart he expects to
go on to Michigan City, Ind., to visit
his sons, who are attending school in
that city. He expects to make the re-
turn trip over the same route he has
come, only making the trip by auto.
He is taking pictures along the route
and expects later to write a book cov-
ering the incidents of the trip and de-
scribing the country.

tainment will net the church about

ANCONA, VICTIM OF SUBMARINE, HAD FIGURED IN WAR NEWS.

S.S. ANCONA, SUNK BY SUBMARINE.

Photo by American Press Association.
[The Italian steamer Ancona, sunk in the Mediterranean by a submarine flying the Austrian colors, was built in Belfast in 1908. She was a twin screw steamer of 8,219 gross tonnage, 482 feet long and with a beam of 58 feet. The Ancona had been in the Italian line service six years, and without her cargo was valued at more than \$1,000,000. She played a prominent part in the rescue of passengers from the burning Fabre liner Sant' Anna in mid-Atlantic in 1914, coming to the Sant' Anna's aid and taking off more than 600 passengers. The Sant' Anna succeeded in checking the fire and proceeded to the Azores without further assistance. For several months before Italy's entrance into the war the Ancona was engaged in carrying home Italian reservists from this country and supplies for the Italian government. On one of her trips from New York to Naples late in August last year the Ancona was stopped by the British at Gibraltar and twenty-four Germans and one Austrian were taken off the ship.]

LUDENS SAYS PAPPAS HAS NOT BEEN CAUGHT

ALLEGED MURDERER OF PETER
MURRAY STILL AT LARGE
HE SAYS.

OFFICIALS WOULD HAVE HEARD

Sterling, Nov. 15.—States Attorney
J. J. Ludens says the many stories
afloat in newspapers that Louis Pappas,
one of the murderers of Section
Foreman Peter J. Murray in Hahn-
man two years ago, has been caught
out west by Chicago & Northwestern
detectives, was all a hoax. He said
had he been arrested he would out of
necessity have to be brought to this
county for incarceration and subse-
quent trial, for the law states that one
must be tried in the county and state
where a crime of that kind is commit-
ted. Mr. Ludens says he has heard
nothing about the arrest of the man
and says there is absolutely nothing
to it.

It will be remembered that on Dec.
3, 1913, Peter J. Murray was mur-
dered in the forenoon of that day
with a number of men standing near
at the time. The murderers were
Louis Pappas and John Katus. They
went away and although much was
done toward searching the country
for them, they made good their es-
cape and nothing has ever been heard
of them.

Indictments were found by the next
grand jury against the men, but they
are still at liberty.

NEW LIGHT PLANT FOR MANLIUS

Outfit Purchased From Dixon Man-
—Twenty-Four Hour Service.

Wm. Hintz of this city has sold to
the town board at Manlius an electric
light plant. In the past electricity has
been supplied by a private plant and
night service only was provided, but
with the installation of the public
plant day and night service will be
furnished. Manlius has enjoyed good
growth the past year, several new bus-
iness houses as well as many residen-
ces having been built.

WAR RAISES PRICE OF JUNK

Dixon Dealers Pay More For Old
Iron, Brass and Lead

A reflection of the European war
is being seen in the prices paid by
Dixon junk dealers for scrap iron,
brass, copper and lead. The prices
are going up owing to the increased
demand made by the war. For in-
stance scrap iron brought \$1 and \$5
a ton prior to the war. Now it is
bringing as high as \$8 per ton.

CHANGE ARRANGEMENT OF ROOMS AT Y.M.C.A.

OLDER MEMBERS NOW HAVE
QUIET ROOM—MAY CHANGE
PARTITIONS

The board of directors of the Y.
M. C. A. has arranged to make a
number of changes in the rooms at
the building. The present reading
room in the rear will be fitted up as
a room for the older members where
they may get away from the noise
that comes from the game tables.
The reading room will be moved to
the parlor for the present. Another
change is under consideration by
the house committee and if this is
carried through some of the parti-
tions will be changed so as to make
an alteration in the arrangement of
the rooms on the north side of the
building and by changing the secre-
tary's office the reading room can be
placed on this side of the building.
The three pool tables installed in the
past year are proving a source of
much enjoyment for the younger
members and if room can be made
another table may be added. The
Dixon Association is now flourishing
and the names of many new mem-
bers are being added to the roll.

Awarded Him Damages.

A jury in Justice Hanneken's court
Saturday afternoon awarded W. H.

ris appeared for Mr. Seibert while At-
torney Harry Warner represented Mr.
Carlson.

PLOT TO BOTTLE UP U. S. FLEET CHARGED

PROVIDENCE PAPER SAYS GER-
MANS PLANNED TO TIE UP
BATTLESHIPS

WAS TO SINK LINER IN CHANNEL

Providence, R. I., Nov. 15.—The
Providence Journal says:

Statements made to the Provi-
dence Journal by federal authorities
show that last May when the entire
Atlantic fleet of the United States
was drawn up in the Hudson river
to be reviewed by President Wilson,
there was a German conspiracy on
foot to bottle up the battle ships by
sinking a large Hamburg-American
liner across the channel in front of
Hoboken.

The plot was killed by the vigor-
ous action of Admiral Fletcher,
Chief Flynn of the secret service,
and Dudley Field Malone, collector
of the port of New York, who held a
number of conferences with the re-
sult that a special squad of eighty
picked men was selected over night.

Instructed To Shoot

Two armed guards were placed at
every lower holding German-Ameri-
can ships at their docks. In every
part of the river. These men were
provided with hastily rigged tele-
phone lines running right to the
docks and they were instructed to
shoot first and ask questions after-
ward if any of the officers or crews
of the tied up steamers made any at-
tempt whatever to move out into the
stream with their vessels.

As the plot was believed to have
included an attempt on the part of
the fastest German ships to escape
to the open sea, two fast destroyers
were detached from the fleet and
placed below Tomkinsville with in-
structions to sink any vessel that
sought to get away.

It is believed by all authorities
that this action alone saved the sit-
uation. The efforts made to run
down the principals in the plot were
unavailing, but the secret service is
still hopeful of obtaining evidence

Learn That Fay Is Ready To Tell All Details Of Big Plot

United States Is Said To Have
Evidence Corroborating
His Story

New York, Nov. 15.—For more than
an hour A. J. Flynn, chief of the se-
cret service, and John Knox, special
assistant U. S. attorney talked with
Fay, the alleged German spy. From re-
liable sources three significant facts
were learned. First, Fay has offered to
turn state's evidence. Second, the
story which Fay already has told
about himself has been repeated in
Europe word for word. Third, the
United States government has evi-
dence corroborating Fay's story, as al-
ready printed, and connecting the
German secret service with the plans
to wreck munition ships, blow up or
set fire to munition factories.

FARMERS' SILOS ARE OF USE TO CAVALRY

ILLINOIS NATIONAL GUARDSMEN
LIST EVERY SILO IN
OPERATION

ARE FINE OBSERVATION POINTS

(Associated Press)

Springfield, Ill., Nov. 15.—PROTES-
tants Illinois farmers who pride them-
selves on the possession of tall, con-
crete silos for the storage of ensilage
would be surprised if they were
aware of the keen interest taken in
their "fodder towers" by members
of the Illinois National Guard.

The silos are treble important
from a military standpoint because
in addition to indicating a good
supply of fodder for cavalry and ar-
tillery horses, their presence means
ideal observation towers and splen-
did machine gun sites. Troop D, of
the First Cavalry, 1st N. G., stationed
at Springfield, has taken careful
stock of the country within a radius
of twenty miles of the capital, and
in addition to knowing every for-
dable point on the Sangamon river
and other streams, is aware of every
barn and silo that might be of mil-
itary value in Illinois.

In working out problems pro-
pounded by Major Charles A. Walz,
the only field officer of the First
Cavalry living in Springfield, Capt.
John P. Snigg, Jr., commander of
troop D, and his men, have ridden
pretty well over all the roads and
trails of Sangamon county. As the
officers are equipped with compact,
khaki-covered writing cases, con-
taining all the instruments necessary
for map making, and pads of blanks
ruled to scale for maps, most of San-
gamon county has been carefully
charted.

While no effort is made to keep
a permanent record of live stock en-
countered on the hikes of the troop,
the patrols sent out to protect the
flank of the main body, always have
strict instructions to report on all
hogs, cattle and horses seen.

ROBBINS IN BATTLE WITH TWO OTHERS

DIXON MAN HAS OPPOSITION
FOR HIGH OFFICE IN
I. O. O. F.

(Associated Press)

Springfield, Nov. 15.—Members of
the Grand Lodge of Illinois, order of
Odd Fellows, were to meet today in
Representatives Hall in the state
house for their 78th annual conven-
tion. The big feature of the conven-
tion is a torch light parade to be
held tomorrow night in which all
branches of the order will partici-
pate, the Rebekahs, the feminine
auxiliary of the Odd Fellows, to hold
their convention at the same time.
The convention proper begins to-
morrow night, and today's exercises
were to be of a preliminary nature.

There are three candidates for
the office of grand warden of the
grand lodge. They are: H. M. Blood,
Chicago; Dr. C. A. Robbins, Dixon;
and Oscar B. Wylie, Paxton.

There are several banquets on the
program and it is understood the
order will not adjourn until Thurs-
day night.

AMERICAN CONSULAT MARSEILLES ORDERED TO GET INFORMATION

WILL GO TO BIZERTA, IF NECES-
SARY, IN THE ANCONA
INVESTIGATION.

OFFICIAL REPORT 232 SAVED

State Department Has Secured Fig-
ures to That Effect—No
New Details.

(Associated Press)

Washington, Nov. 13.—Official re-
ports to the state department show
that that total number of survivors
from the Italian liner Ancona, which
was torpedoed by an Austrian sub-
marine, is 232. The department has
received no other new light on the in-
cident. American Consul Kemp at
Marseilles has been ordered to go to
Bizerta, if necessary, to get informa-
tion concerning the sinking of the
vessel and the fate of Americans
aboard her.

Rome, Nov. 15.—The Italian steam-
ship Bosnia has been sunk by a subma-
rine flying the Austrian flag. The pas-
sengers and crew boarded four life-
boats. Three of these craft have been
landed, but the fate of the occupants
of the fourth boat is not known.

The Bosnia was a vessel of 2,561
tons gross and was 307 feet long.
The Bosnia is the third Italian liner
sunk with a week by submarines flying
the Austrian flag.

Of ten Americans who were on
board the Italian steamship Ancona
when she was sunk by a submarine
off the Tunisian coast only one was
saved, according to a statement issued
by the Italian emigration office.

The statement also says that out of
507 passengers and crew of the An-
cona only 299 were saved.

Ancona Fled, Says Vienna.

Berlin, Nov. 15.—The Austro-Hun-
garian admiralty officially announced
that the Italian steamship Ancona
attempted to escape at full speed after
a warning shot had been fired across
her bow and that the vessel only stop-
ped after being shelled several times
by an Austrian submarine, says the
Overseas News agency.

The submarine commander, it is
further asserted, allowed the Ancona's
passengers and crew forty-five min-
utes to abandon the ship, after which
the vessel was torpedoed, sinking
three-quarters of an hour later. The
report that the submarine fired on the
life boats is denied.

The Admiralty Statement.

The statement issued by the Aus-
tro-Hungarian admiralty, declares that
the foreign press has spread false ru-
mors regarding the Ancona incident.

Runic and Vandalism Sunk.

New York, Nov. 15.—The Cunard
Line officially denied the report that
the Aquitania and Mauretania had
been sunk while acting as transports.
"They had been in the hospital ser-
vice between Savla Bay and Liver-
pool," said an official of the line. "The

THE FURNACE

At this time of the year the furnace begins to come bitterly to our attention. It is a peevish ruffian which makes its lair in the cellar of plain people and contributes to the horror of winter by declining to give forth heat in a blizzard because the chimney wasn't manured during the autumn.

The furnace is composed of a large cracked firebox surrounded by a sheet iron hoghead. It is operated by a system of checks and drafts, although one may of course pay cash and get just as good results. It is connected with the various rooms in the house by large tin pipes, which serve to transmit cuss words from the cellar to the upstairs, and it is connected with the chimney by a pipe which serves to transmit heat into yon high heaven. When a furnace is working vigorously a stratum of warm air a mile high over the house is sometimes produced. Thus the furnace is the sparrow's friend, but until some means of locating the living room directly over the house is devised it will not be doing its full duty toward humanity.

The hot-air furnace is so named

from the manner in which it is sold. We are led to believe, when buying a No. 13 furnace on an E last, that it will readily heat a 9-room house so thoroughly that a coat and vest will be entirely superfluous, even on the front porch. This is only partially true. The furnace will not heat the house by means of the pipes and registers, but if sufficiently flattered and encouraged it will eventually ignite the floors and make everything lovely and warm until the fire department arrives.

A furnace can be readily operated during the winter by one man if he makes arrangements to have his meals brought down cellar to him. By shoveling your spring overcoat, your club dues, your summer vacation and your winter's theatre tickets into your furnace, you can keep it burning all winter except on zero nights. A furnace is quite hardy and by wrapping an old carpet around it on very cold days you can keep it from becoming dangerously chilled.

Some people claim that they can run a furnace all winter on \$24 worth of coal, and that by putting in two shovels full in the morning they can maintain a fierce heat until evening. Do not worry about these statements, however. Go ahead and discount them with claims of your own. This is a free country and everybody can lie in it.

NO, THIS ISN'T A VAUDEVILLE COSTUME.

You may think that women won't wear such a thing off the stage, but you are mistaken. This is one of the regular fashions for the fall and winter. It may be a little extreme—the fashion experts admit that—but they think it is the dearest thing so far offered.

The colonial dame extended her petticoats over a farthingale, "but her great granddaughter," to quote the fashion expert, "prefers a band

of fur at the hip, which gives the same effect. They call it a tailleur of white cloth, and say" it boasts a real basque, fitted and whaleboned at the waist line. The skirt below is short and very full. Not "very full" of woman, of course. It is not made for fat women alone, but it is full of material. As to cost, that naturally depends on who is boss in your household.

DIXON WON HARDEST GAME AT ROCHELLE

ON TOP IN 13 TO 12 CONTEST THERE ON SATURDAY AFTERNOON.

WON GAME IN LAST QUARTER

In the hardest fought game of the season's schedule the Dixon union high school football team defeated Rochelle high at Rochelle Saturday afternoon, 13 to 12. Dixon scored first when after about five minutes of play Vaughan got away on a swell for ward pass for a 25 yard run and a touchdown. Goal was kicked and the score was Dixon 7; Rochelle 0.

Neither team scored in the next quarter but in the third Rochelle scored its first touchdown on old style line plunges. She failed on goal and Dixon led by one point. The Ogle county boys soon followed with another touchdown and again failed at goal. The score at the end of the third quarter was Rochelle 12, Dixon 7.

The Dixon boys came back gamely in the last session and pushed the ball over for another touchdown, the score standing: Dixon, 13; Rochelle, 12.

PLOT TO BOTTLE UP U. S. FLEET CHARGED

Continued from Page 14

which will lead to their arrest.

Lusitania Note Cause

From the information in possession of the authorities, this plot was hatched as an immediate result of the great wave of indignation which swept over the whole country on May 11 immediately after the arrival of the fleet in the Hudson river, when the German government forwarded its so-called "explanation," to Washington with regard to the sinking of the Lusitania.

In both the German and Austrian embassies it was firmly believed at that time that the United States was on the verge of breaking off all relations with Germany, and the plot was conceived so as to make our fleet impotent at the moment when its presence on the Atlantic seaboard was most necessary, as well as to make the nation appear ridiculous in the eyes of the rest of the world.

Wilson Aboard Flagship

As far as can be ascertained the plan was to have been executed on the night of Monday, May 17, when President Wilson and his official party were being entertained by Admiral Fletcher aboard his flagship, the Wyoming.

The condition of the weather, which was stormy, with a drizzling rain, seemed to favor the effort, but when it was discovered that information concerning the plot had leaked out and that many additional guards had been thrown around all the steamers at Hoboken and elsewhere, the attempt was abandoned.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

Look young! Common garden Sage and Sulphur darkens so naturally nobody can tell

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By taking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

Mystic Workers

The Mystic Workers held their regular meeting Friday evening in Miller's hall with a large crowd present. Twenty-seven candidates were elected to membership and a large class was initiated, the degree team putting on the work.

The committee on bazaar arrangements reported last evening, stating that this year there would be a special feature at the bazaar each evening. The bazaar opens December 4, with a chicken pie supper.

After the meeting a program was given. Otto W. Weeks gave a reading, entitled "That Old Sweetheart of Mine." Misses Emma Perry and Marie Southwell favored the company with a piano duet. Worthy Geo. W. Hill then gave a vocal number. All of these were heartily applauded. A delicious supper was served to nearly a hundred. The supper was prepared by the men, and was a great success.

Our next meeting will be Nov. 26. At this meeting officers for the ensuing year will be nominated, and also delegates to the Supreme convention will be nominated at this time.

CASCARETS' BEST IF HEADACHY, BILIOUS SICK, CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

OYSTER BUSINESS.

The fleet of oyster ships which had been anchored in Canton Hollow since last April promptly hoisted the sails or struck a match to the gasoline and started for the oyster bottoms when the dredging season opened. Daily since then they are returning to port laden with the early spoils. Is this to be a better season than last year? The oystermen think yes. Optimism is the fashion when the dredging season first opens.

There were several thousands of acres that were leased and planted under the repealed law that will be common hunting grounds this year. The oysters that have been coming to market since the tongs season began have been of a better average quality than the early shipments of previous years for a considerable period. Possibly there were a good many "plants" in these first receipts, but it is a fact attested through a century of observation that oysters in the Chesapeake region are of better quality some years than other years.

Last year was not regarded as a good year for oystermen. The country for some unexplained reason seemed to lose its oyster appetite. There is reason to believe that unproven charges made against oysters grown in the Long Island Sound region had something to do with the sudden loss of popularity of oysters as a festive specialty. The oyster will come again as a menu favorite. The base slander has already been offset by experimental tests showing that the Chesapeake mollusks are healthy, wholesome and good. What we need in the Maryland region is more oysters—enough to make it worth the while of shippers and cannerymen to develop a world trade. There was never a very wide demand for canned tomatoes until farmers began to grow this vegetable as a standard market crop.—Baltimore American.

SCRAPPING THE FAILURES.

When Baron St. Davids rose in the British house of lords recently and argued that Great Britain should follow the example of France and Russia and keep changing the government until the most perfect instrument for prosecuting the war is found, he expressed a sentiment that has come lately to occupy a prominent place in the minds of neutral observers. "The position of Great Britain now," said Baron St. Davids, "is like that of France after the Revolution, when generals and statesmen who failed were decapitated. If we are to win we must scrap everybody, civilian or military, who is unsuccessful." This statement reflects the general restlessness of the British people.

A great, and perhaps the main cause of this poor showing may be attributed directly to the system of awarding minor but important public office to persons whose influence is greater than their ability. The British cabinet system brings to the surface men whose ability is conspicuous, but in the secondary positions there is a host of cousin and friends who have little else to recommend them. In times of peace they may "blunder through," but the times of war call for men made of sturdier stuff. Hence the reference to Baron St. Davids to "scrapping the failures." They may be men of some ability, good character and unquestioned loyalty, but they want the habit of success. To relieve them of the comfortable posts which in some cases they have held for years seems a somewhat heartless expedient, but in times of stress a warring nation cannot stop short of even the most severe expedient, and it is palpably evident that in Great Britain this is a time of stress.—Indianapolis News.

LINCOLN—SIXTY YEARS AFTER.

In 1856, Abraham Lincoln, in a speech delivered at Chicago, said:

"All of us who did not vote for Mr. Buchanan, taken together, are a majority of 400,000. But in the late contest we were divided between Fremont and Fillmore. Can we not come together for the future? Let every one who really believes and is resolved that free society is not and shall not be a failure, and who can conscientiously declare that in the last contest he has done only what he thought best—let every such one have charity to believe that every other one can say as much. Thus let bygones be bygones; let past differences as nothing be; and with steady eye on the real issue let us re-inaugurate the good old 'central idea' of the republic. We can do it."

In 1916, sixty years after these words were spoken, they should come to the men of Lincoln's political faith and of Lincoln's party as both an admonition and an appeal.

All of us who did not vote for Mr. Wilson are a majority of nearly two and a half millions. Those of us who voted as republicans and progressives are a majority of nearly a million and a half. If we alone will take Lincoln's counsel we shall "reinaugurate the good old central idea of the republic."

POLITICS AND DESPOTISM.

Because George Burkitt, assistant postmaster at Winnetka, who has filled his position in the most creditable manner for many years, said that he thought President Wilson ought to have waited a little longer after the death of his wife before he married again. Burkitt has been removed from office by the government. Rather small potatoes, Mr. President. Such a petty act as that looks like despotism.

Later—Associated Press dispatches to the Telegraph later today tell us that the former assistant postmaster at Winnetka has been reinstated by the President. This news is pleasing. Mr. Wilson did not change his mind any too soon. The people of the United States were beginning to boil just a little bit.

A NATIONAL POTATO DAY.

November 25th, Thanksgiving day, has also been set aside as the National Potato day. The idea is to create interest and develop the potato industry. We imagine, however, that it will be some time before anyone will know that it will be anything other than "Turkey Day." Every day is potato day, but turkey days are few and far between.

THE COAL MAN IS HAVING HIS FUN.

The Coal Man is having his inning now. That's all right, though. The Coal Man isn't half as bad as popular say-so has it. Most of the Coal Men of Dixon do their share toward making life easy for unfortunates. The Good Fellow club always gets several tons of coal donated from the dealers of the city.

CURRENT COMMENT

Bureau County Tribune: It has just been discovered that some of the "boozers" in Geneseo and vicinity who have apparently been able to get all the "booze" they wanted in spite of the fact that it is "dry" territory, have been getting their supplies by tapping the silos in the vicinity and drinking the fermented liquor that has accumulated at the bottoms of the silos. It is fermented corn juice and its elements are similar to those found in corn whiskey.

Elgin Courier: The significance of Mayor Thompson's proclamation lies not in the fact that the law is now to be enforced, but rather in the fact that, astute politician that he is, he has sensed that a majority of the voters of Chicago now want the saloons closed on Sunday and law obeyed.

Mattoon Journal Gazette: Yes, Esther, the young lady who sits back of you at the movie and tells her friend all about the picture play scene by scene, is not a public benefactor.

Rockford Register-Gazette: Mayor Thompson's cowboy hat, it seems, is not the only sort of a lid that promises to make him famous.

Peoria Transcript: Villa evidently proposes to push his "constitutional" propagandist as long as the cut throats and sharpshooters will attend his lectures.

Moline Dispatch: Illinois liquor dealers, in their recent convention, called for a strict observance of the law in order to lengthen the life of their business, and they went so far as to condemn cabarets, not only on Sundays, but any day in the week. Yet the thing which Mayor Thompson is attempting to do will not be likely to find them wheeling into line with any degree of unanimity.

Topka Journal: The methods of the old Louisiana lottery are being followed by Bethlehem Steel. The lottery sold a ticket for a dollar which entitled the holder to one-tenth of the capital prize if he were lucky. For the convenience of speculators, Bethlehem shares may be broken up into ten shares of \$10 each for one of \$100. At a quotation of \$600, not many persons can trade in the commodity, but at \$60 active buying is expected. Merely a lottery in another form.

Rockford Republic: Now we are informed by an antisuffragist that the Roman empire fell because women went into politics. Just the other day an English writer insisted that it fell because Rome abandoned military conscription in favor of voluntary service. Previously we had learned that Rome fell because of its mosquitoes, because of the Germans, because of Christianity, because of absentee landlordism, and a dozen or two other causes. The one sure thing about Rome is that it fell. And what a lucky thing that was for modern moralists.

Decatur Herald: The woman who led the suffrage parade in New York City, wore a pair of wings and carried a palm leaf. We should not wonder if suffrage in New York state were defeated. We can imagine the emotions of most of the male voters if a man should lead a procession wearing wings.

If you do not feel the influence of good music in your home, it is probably because of one of two reasons. Either your old piano is out of date and out of tune, or you have never before met such as offer as we now are prepared to make you.

The Holland Pianos are the highest grade voice toned Pianos, made in a factory conducted under most modern efficiency methods which enable the manufacturer to produce these perfect instruments at 20 to 25 per cent lower than the average piano manufacturer is compelled to ask. Come and see our exhibit today.

You have always longed for such a piano. Now is your opportunity. Old instruments in exchange. Time Payments.

BROTHERS SHAKE HANDS AFTER TWENTY YEARS

FREEMONT MEN BURY HATCHET—WILL EAT TURKEY TOGETHER.

Freemont, Nov. 15—Reconciliation has been effected between John and Frank Milton, former residents of Ridgott, after differences between them which existed over a score of years. They met yesterday for the first time in 20 years, at the home of John Milton of Freemont, Frank coming from his home in Schofield, Wis. They clasped hands and agreed to bury the feud which has raged in their hearts during these years.

The estrangement started on a summer day when John Milton left his farm and came to Freemont for a visit. During his absence Frank went to his brother's place and borrowed a neckyoke, and while using it in the afternoon it was broken when his team ran away. Frank went to the home of John that night, explaining he had borrowed the neckyoke and the circumstances of how it had been broken. When he finished he was stormed at by John, who told him if he wanted to borrow anything he should first ask permission. When Frank left the house he heard the words of his brother ringing in his ears never to come to the place again.

John Milton moved to Freemont a year ago. His health is failing and recently his wife wrote to Frank's wife concerning his condition, with the result that both came to Freemont yesterday. Frank, the visitor, was the first to extend his hand, saying, "How do you do, Frank?" and in that minute all past differences were wiped out. Mr. and Mrs. Frank Milton will remain here until after Thanksgiving day.

ORGANIZING NEW UNIT.

Melbourne: The Miners' Unit which the commonwealth government recently offered to raise, equip and send to the front, is now in process of formation. It will be composed of three companies enrolled in districts in Australia devoted to mining, and thus probably both New South Wales and Queensland will supply one, Australia another and the three other states the third. The total strength of the force will be about 1000 men.

The officers of the unit are all to be drawn from the mining specialists in the commonwealth. There will be a headquarters staff and to this a few geologists will be attached.

New Zealand is also making a departure in recruiting a corps of skilled miners and their assistants.

Best Time To Sell Crops Is Subject U. Of I. Bulletin

(Associated Press) Urbana, Ill., Nov. 15 — "When is the best time to sell my crop? Will I make more by holding my grain, expecting later a price which will more than compensate for the shrinkage which will occur during the intervening period, or will it be more profitable to sell my corn from the field and my small grain from the threshing machine?" These are the constantly appearing questions that W. L. Burlison and O. M. Allyn of the Corn Production division of the University of Illinois have discussed in a pamphlet known as Bulletin 183 that will be issued this week from the Illinois Agricultural Experiment Station.

In the handling of farm grain, especially corn, shrinkage plays an important role and the shrinkage factor should always be considered when the producer is holding his grains for higher prices, according to the bulletin.

The facts relating to the problem, so far as they are available, have been collected and the conclusions drawn are based upon sound reasoning and upon scientific data covering a series of years, the bulletin states.

Following is a statement of the conclusions of Messrs. Burlison and Allyn:

"Prices of farm crops in general are regulated by commercial market quotations, which in turn are governed by supply and demand.

"The increase in prices of crops within the last few decades has not been so great as many people have

believed. By comparing the average prices for the fifteen years preceding the financial crisis of 1894 to 1898 with the average prices for the average increase has been only 9.2 cents per bushel for corn and 6.5 for oats, while the average price for wheat has not increased. The price for barley has tended to decrease, while the price for rye has increased about the same as that for corn.

"In general, in the last 30 years, the time of lowest average price for corn, wheat and oats correspond closely to the time of largest average receipts for wheat. Except during the summer months, the same is true for rye and also for barley during the last ten years.

"Shrinkage is one of the most important factors to be taken into consideration in holding corn for higher prices. The total shrinkage during the year is more than 15 per cent. Taking November as a base, the data shows that there is no month for which the price increases sufficiently to compensate for shrinkage. If January or February is taken as a base, then the increase in price, up to, but not including October, more than compensates for shrinkage alone.

"Not so much is known of shrinkage of wheat and oats as of corn. It may be said that they shrink comparatively little after they have gone thoroughly through the sweat. It would seem profitable, so far as shrinkage alone is concerned, to hold small grain until the time of highest prices."

28 KILLED IN VERONA BY AUSTRIAN AIRMEN

Three Aeroplanes Drop Fifteen Bombs on Italian City.

Rome, Nov. 15.—Three Austrian aeroplanes dropped fifteen bombs on the City of Verona.

Twenty-eight persons were killed. Thirty other inhabitants were seriously wounded and nineteen people were slightly injured. One bomb alone killed nineteen people.

This is the second time Austro-Hungarian aeroplanes have made a raid on the fortified City of Verona. Last July an Austrian machine dropped about a dozen bombs on the city, and then escaped, notwithstanding a fire directed at it by the forts defending the city.

Verona, next to Venice, is the most important town of the Italian compartment of Venetia, and is distinguished by its striking medieval palaces.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

WHO OWN THE RAILROADS?

Time was when little Ah Sid stuck up his hand and answered teacher's question by informing that "Vanderbilt, Gould, and a few others own all the railroads," and the answer was correct. Later on Wall Street held most of the proprietorship. But the Interstate Commerce Commission finds that there are now 622,284 persons owning the railroads at this time. Although the railroads have complained bitterly about new laws for their regulation, the number of stockholders has been doubled in the last ten years. It is related that it took eight thousand American soldiers to wreck a Mexican railroad at Vera Cruz, although three directors of the New Haven are supposed to have done a more thorough job here at home. But three or four United States senators regulated the whole railroad bunch and made the proper ties a safe investment for honest people. At least the figures seem to bear out this conclusion.

Henry Reitz was here from Ashton Saturday morning.

THE NATIONAL CAPITAL

EVENTS OF INTEREST FROM THE SEAT OF GOVERNMENT

(By J. E. Jones)

"Trade at Home"

The editor of every local newspaper in the country has been free in the use of the slogan, "Trade at Home." His clear understanding of the conditions of his community make it plain to his mind that if his town or city had what was naturally due it, that the local merchants would do a larger business; and while the editor is notoriously an unselfish member of society, he cannot help knowing that he has suffered with the rest of the community, and that his advertising columns have been thinned by the mail order houses, the big city stores, and the balance of that sort of fungus that drains the commercial and industrial vitality of the small towns and cities.

Examination shows that the local merchant sells staple articles of merchandise that are called for by name and he maintains steadily the re-sale prices fixed by manufacturers—no matter whether the article is breakfast food, jewelry, drugs, shoes, shirts or socks; and he makes a reasonable profit. As a "bait" mail order houses cut prices on some of these staple articles, in order to make it appear that they sell cheap; but their greatest effort is made to sell goods which they claim to be "just as good," but which are in most cases, of inferior quality, at prices far above their actual worth. The local merchant must either do an honorable business, or close up shop. His principal competitor is the catalogue house and the mail order man and those men actually make a larger percentage of profit out of their sales than the local merchant, who is so often mistakenly accused of overcharging. An outraged public rebelled against the old time custom of barter and bargain, and forced one price system to be established in reputable merchandising, but the mail order and catalogue houses are "beating the old game" in a new way. Those are reasons why the Federal Trade Commission regards "price regulation" as the biggest question it has to handle. It is expected that the Commission and Congress will sooner or later put an end to the methods of cut-throat merchandising which are playing havoc with the small communities, and doing no good to the large places, or to anyone else excepting the men engaged in these unworthy practices.

President Wilson is pardoning more prisoners than any of his predecessors, unless McKinley and Lincoln be excepted. At the rate "executive clemency" is being put into effect Mr. Wilson may eclipse all of his predecessors.

RAILROADS SPEED UP.

Petrograd: There has been great speeding up of methods and men on the Russian railway systems during the past few weeks, as a result of investigations undertaken by the new Minister of the Interior, M. Khvostoff. His investigations were begun in the first place owing to complaints regarding the scarcity of food supplies in Moscow.

The Minister's plan for remedying the conditions include the speeding up of managers and workmen, the use of motor vehicles for unloading and delivery, the use of the electric street cars for freight at night, and the fixing of maximum prices for distribution service by private concerns. The new measures are being put into operation at Moscow, Petrograd and other places where they are found necessary.

U. OF I. PROFESSOR SAYS OUR LANGUAGE SHOWS OUR SOCIAL STANDING

(Associated Press)

Topeka, Kas., Nov. 12—Nothing so marks what we are socially as our language, Prof. H. C. Paul of the department of English of the University of Illinois told delegates of the Kansas State Teachers' Association here today.

Prof. Paul said he had once heard a woman utter just one sentence: "My man didn't get no bid," and, although she was a stranger to him, by that one sentence he easily char-

acterized her and the social class to which she belonged.

He said it is more the duty of the grade school teachers than of instructors in higher institutions to induce their pupils to form the habit of speaking correctly. He added that the example set by the instructor was a potent factor in bringing success or failure to the undertaking.

"Slang has a place in the English language," he said, "Sometimes a slang expression is exactly 'pat' but the objection to slang lies not so much in its use as in its abuse. Slang is to language what a sweater or kimona is to dress. Usually an extended use of slang indicates either mental poverty or mental laziness."

Mr. and Mrs. Joshua Reed and Miss Lillian Wolcott drove in from the Kingdom Saturday.

Mahlon Kent of Amboy was in Dixon on Saturday.

The Hague, Nov. 15.—A Berlin dispatch says the Bunderath has passed nine important new food ordinances. The most interesting empowers the imperial chancellor to promulgate regulations for the sale, consumption and price of coffee, tea and cocoa, as well as to obtain statistics regarding the stocks on hand in Germany. Also, at the chancellor's discretion, maximum prices for vegetables, fruit and sauerkraut may be fixed. The Bunderath has also started an investigation into the rising price of salt.

BOMB DRILLS FOR SCHOOLS.
Amsterdam: Bomb drill, consisting of exercises of an elementary sort designed to instruct children how to act in the event of raid by hostile aeroplanes, has been adopted in all the public schools of Alsace, Baden and Rhenish Prussia.

Travelers from Germany state that in both Baden and Alsace a number of children were recently severely injured in the scramble to leave the school buildings during the recent raids. At Offenbourg the annual general council of mayors of Baden cities had just opened its sessions in the city hall when the fire alarms and sirens announced the approach of a squadron of French aeroplanes. The mayors adjourned to the coal cellars of the building until the danger was over.

"YEAR OF THE TIGER."

London: The year 1914, says a British consular report from Japan, just issued, was, according to the old Japanese system of reckoning, the Year of the Tiger, and in conformity with Japanese superstitions should have been a year marked by tragedy and disaster.

To a great extent this was so, says the report. The year began with the eruption of the Sakurajima volcano in the south of Japan; in the spring the Empress Dowager died; later on the disclosure of certain scandals contributed to the fall of the cabinet; in early summer the Kitashima Bank failed and in August the great war broke out.

THIRD ITALIAN LINER IS SUNK

(Continued from Page 1)

When the Nov. 12.—The case of the Italian liner Ancona which has been a puzzle to the state department ever since she was torpedoed in the Mediterranean last Tuesday, was presented in still a new light with the issuance of a statement by the Austro-Hungarian embassy giving the official account of the destruction of the liner. In this statement the Austro-Hungarian government assumes full responsibility for the sinking of the Ancona. This means that the reported statement by the Italian government that a German submarine sank the Ancona will have to be supported by proof before it will be accepted as a basis for action by this government.

transports sunk were the Runic and the Southland. This is the first time the name of the Runic had been mentioned among the transports sunk. She was a White Star liner. The Southland was the Red Star liner Vaterland.

French Steamship Sunk.
 London, Nov. 15.—All on board were lost, it is believed, when the French steamship St. Malo of 1,213 tons was sunk by a German submarine near the Island Guernsey, in the English Channel. Twelve bodies have been washed up on the shores of Guernsey.

RAID STREETER; SIXTEEN IN JAIL

Police Clean Up "Deestrick" of Lake Michigan.

SQUATTER KINGDOM CAPTURED

Thirty-five Chicago Policemen Make Drive on Place Occupant Holds Immune—Captain Streeter Wounded by "Billie"—Woman Is Shot in the Thigh.

Chicago, Nov. 15.—Captain George Wellington Streeter's defiance to the enforcement of the Sunday closing law in the "Deestrick" of Lake Michigan came to an ignominious conclusion when the captain and his entire "army" were captured by police from the Chicago avenue station after a pitched battle in which more than fifty shots were fired. The captain's munitions of war and supplies of Sunday beer were confiscated and hundreds of thirsty patrons who called during the day were disappointed.

In the fight that accompanied his arrest and that of his followers Mrs. Nonie Holist, wife of Streeterville's "chief of police," received a bullet wound in the thigh, while the captain himself sustained a deep scalp wound, which, he says, was caused by a shot from a police pistol.

Police Sergeant Mulcahy says Streeter's injury was caused by a blow from the sergeant's "billy."

The capture of the doctory mariner and his followers was affected only after a strenuous resistance on his part, with the result that charges of assault with a deadly weapon, with intent to kill, were placed against him. Holist and Chris Mantis, his Greek ally.

Shots Arouse Neighborhood.
 Shortly before 9 o'clock in the morning a fusillade of shots aroused neighbors of the "deestrick" and from windows of nearby apartments files of police officers, commanded by Captain O'Toole of the Chicago avenue station, could be seen advancing on the Streeter stronghold.

The engagement was short and decisive. It was all over in ten minutes, and the police were in command of the sacred precincts of Streeterville. At least a dozen of the fifty bullets fired entered the house on wheels where Holist and his wife live, one of them wounding Mrs. Holist.

Streeter was overpowered by detectives disguised as laborers as he was pouring a volley of shots toward Captain O'Toole and Detective Freeman. Mrs. Streeter was seized in the rear of the place while attempting to discharge another rifle at the plain clothes men in the front rooms of the building.
